THE WESTERN TERRITORIES.

A comparative statement of the area of the present States with that of the territory destined to be erected into States exhibits the interesting fact that the area of the latter in square miles exceeds that of the former. The superficial area of the Territories, organized and unorganized, is set down as follows:

| Square miles | | 136,000 | | New Mexico Terr | 141,000 | Nebraska d | 227,000 | Mesilia d | 113,000 | 187,000 | Equare miles. erritory 210,000 do 528,000 do 78,000 do 187,000 1,807,000 To these Dacotah is to be added, of the extent of which we have en no estimate. The superficial area of the present States is as follows :

1,461,010 It is seen that the area of Kansas is ninetsen thousand square miles greater than that of all New England, New York, and New Jersey; and that the area of Nebraska is ninety-five thousand miles greater than that of all the non slaveholding States except California. Oregon is nearly equal in extent to all New England, New York, Pennsylvania, Ohio, and Indiana. It is possible that New Mexico and Mesilla will be embraced in one territorial organization by Congress at the present session, containing 288,000 square miles—exceeding all New England, New York, Pennsylvania, Ohio, Indiana, and Illinois. Washington exceeds in extent all New England and New York.
